Millennium Systems International, Makers of the Award-Winning “Meevo 2” Software, Brings on Partner Serent Capital to Accelerate Growth

Investment Positions the Company for Accelerated Growth and Continued Product Innovation

Parsippany, NJ: Millennium Systems International (“Millennium” or “MSI”), a leading software provider to the spa and salon industry, announced that it received a minority investment from Serent Capital, a growth-focused firm that invests in technology and tech-enabled services companies.

Millennium’s award-winning end-to-end Meevo 2 platform allows salons and spas to manage the critical areas of their business, from customer acquisition and retention to operations and billing. The company’s software powers over 150,000 of users daily and processes billions of dollars in transactions for its thousands of customers across the globe. The investment will help the company expand its go-to-market, continue its product innovation, and further establish its leading position within the beauty and wellness space.

The company has recently been active in product innovation, including offering a contactless experience for beauty and wellness clients. Millennium Systems International recently announced advancements in its product security, including HIPAA Compliance and artificial intelligence (AI) and Machine Learning (ML) features.

John Harms, Founder and CEO of Millennium, shared, “We are excited to partner with Serent Capital and bring together the depth of Millennium’s industry knowledge built over three decades with Serent’s vast experience and resources in vertical software and with integrated payments. We waited 30 years to bring on a capital partner, but today was the right time, and Serent is the right partner. Together we look forward to building more products and functionality that our customers love and providing the best possible experience for spas and salons.”

“We have gotten to know John and Millennium since 2014 and developed a great respect for the team, their new cloud-based product Meevo 2, and their loyal customers,” said Stewart Lynn, Partner at Serent Capital. “We’re thrilled to partner with them as we look to help scale an already special business and position it for the next chapter of growth,” he concluded.

Serent has been an active investor in vertical software with integrated payments across several industries, including the lawn care industry with Real Green Systems, the landscape industry with LMN, the education industry with KEV Group, and the athletic event management industry with ArbiterSports.
